GRAPHIC DESIGNER

About me

Every project is a challenge for me, which moves me and changes my view in graphic design for the better.

I am a graphic and media design student. I have no problem working in a team and I am always excited to learn new things. I consider myself open, creative and sometimes a little crazy. Sometimes I don't think about things that much and I just act. I'm rather quiet, but if I say something, it's worth it. I am passionately collecting vinyl records, I like to try new things, traveling, playing games, make things and collecting experiences.
